DETAILED ACTION

This is in response to communication filed on 4/10/07 in which claims 1-2 are pending. The applicant's amendments have been fully considered but they are moot based on the new ground refection therefore this case is made final.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless—

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Hamdi U.S. Pub No 20010002902.

As per claim 1, Hamdi teaches a system that provides a user of a single analog line multiple uses of said line comprising; a modem (see fig.2a element 180) connected to a fixed logic system which multiplexes or demultiplexes data; said modem compressing a signal traveling through said analog line; said modem providing simultaneous transmission of two, or more, speech or data calls (see page 4 paragraph [0046], [0051], [0062-0067]).

AS per claim 2, Hamdi teaches wherein said modem is programmable (see page 7 paragraph [0074])
